1. Executive Summary

The Eat2beNICE project, a European Union's Horizon 2020 research and innovation programme, aims to investigate the effects of nutrition and lifestyle on impulsive, compulsive, and externalizing behaviours.

We hereby report for deliverable D8.6: *Registration number of clinical studies in a WHO- or ICMJE-approved registry.*

2. Deliverable report

Four clinical trials are to be performed in Eat2beNICE:

- RCT TRACE/Elimination study
- RCT Medicomp/Predimed-Plus
- RCT Probia
- RCT Vantastic

For all participating RCTs, we collected the latest versions of the applicable data collection protocol, and the final ethical approvals. For these clinical trials, a registration number has been requested and issued (Table 1).

3. Tables and other supporting documents where applicable and necessary

Please find below the table earlier mentioned in the deliverable report.
